

2018 PRODUCT GUIDE

We believe in the power of visual communications.
Images that capture the moments of a larger story.

ABOUT US

At EMR, we believe in the power of visual communications and strong brand recognition at shows. Large format images capture the moments of a larger story: a story that places products and services into the context of people's lives, thus bringing into focus our needs, and what motivates us to act on them.

We are your one-stop resource that specializes in accessible, personalized service, creative solutions, along with large format dye-sublimation printing.

We invite you to break through with more clarity, color and texture in unexpected designs, structures and venues to engage and excite your customers and create a powerful and long lasting retention of your marketing message!

Hanging Banners

one or two sided

Bigger Than Life Graphics

Maximize your visibility with a custom hanging banner.

Sized from 8 to 15 feet, your branding and graphics will stand out on a tradeshow floor or retail space drawing in more customers.

In just a few minutes, with no tools required, your signage is a snap to put together.

We can customize your graphics to fit a compatible round, square or triangle banner frame.

GRAPHIC DESIGN SERVICES

LET OUR HIGHLY-SKILLED DESIGNERS CRAFT YOUR IDEA INTO A POLISHED MASTERPIECE.

Our graphic artists are experienced in basic to complex typesetting, layout and image placement for optimum visibility and composition balance and elaborating on initial mock-ups and sketches.

Prior to the start of your project, our designers will provide an estimate of the amount of time required. If necessary, we can also purchase stock photographs. *Please call us for pricing!*

- Photo editing includes: cropping, color adjusting and cloning.
- Complex layer design

HOW TO PREPARE GRAPHIC FILES

PLEASE START WITH OUR GRAPHIC TEMPLATES FOR EACH SPECIFIC PRODUCT

TEMPLATES - SIZE

Layout guidelines and templates can be downloaded from each of the product pages on our website. Make your graphic dimensions match the product you are purchasing. Your image should be to size of your product at 72-150 dpi. Bleeds: Not all products require bleeds; check guidelines for specific product requirements.

RESOLUTION - FILE TYPES

Final size files are only required to be 72–150 dpi. You can view your file in Photoshop at 100% to see how it will look when printed. If designing to reduced scale, adjust dpi accordingly. We accept files from the following programs and formats: Adobe Photoshop and Adobe Illustrator: .ai, .psd, .tiff, .eps and high resolution jpg.

COLOR

Your print file must be in CMYK format. Colors can look drastically different when converted from RGB. We can color match with a provided PMS code and editable files. However, we can only guarantee color accuracy when a printed proof is ordered and approved.

PROOFS

We always e-mail a digital proof before production. It is your responsibility to proofread all your text. Please be aware that we will print your graphics exactly as you send them to us. Spelling or grammatical errors are your responsibility. After your proof has been delivered, we will wait for your approval before printing your artwork. **We rely solely on your approval of the proof as final verification and acceptance of the project.** Any adjustment to your graphic can take time and fees may apply if your modifications or adjustments take an hour or more.

BITMAP VERSUS VECTOR

BITMAP - RASTER IMAGE

Bitmaps images are made up entirely of pixels. When enlarging a bitmap image, additional pixels are added to create this new size. The "new" pixels pick up and average colors from neighboring pixels in an attempt to create a new color that will blend between areas. This is where the overall image becomes soft and blurry and sharp defined edges develop noticeable jagged pixelated edges.

VECTOR IMAGE

Vector graphics use points, lines and curves to create an image. It's based on mathematical formulas and unlike bitmaps can be enlarged to any size, any resolution, without losing detail.

PRODUCTION TIME

ALL PRODUCTION TIMES ARE BASED ON GRAPHIC APPROVAL AND FULL PAYMENT.

PRODUCTION WILL START THE DAY FOLLOWING GRAPHIC APPROVAL.
